

Technical questionnaire

sweet cherry

CPVO/TQ-035/2

Mandatory fields or sections are marked with an asterisk ()*

01 . Botanical taxon: name of the genus, species or sub-species to which the variety belongs:

Prunus avium (L.) L.

Other (please specify)

02 . Application code:

For office use only

03 . Breeder's reference:

Breeder's Ref.

04 . Information on the breeding scheme and propagation of the variety**04 . 01 . Breeding scheme ****(this question could be confidential)*

crossing

mutation

discovery

Please state where and when discovered and how the variety has been developed

other origin

Please provide details

04 . 01.01 . Crossing **(this question could be confidential)*

controlled cross

Indicate denomination and species of the parent varieties

partially known cross

Indicate denomination and species of the known parent variety(ies)

unknown cross

04 . 01.02 . In case of mutation, please fill in the table below: **(this question could be confidential)*

Denomination of the parent variety	Characteristic(s) in which your candidate variety differs from the parent variety	Describe the expression of the characteristic(s) for the parent variety	Describe the expression of the characteristic(s) for your candidate variety

04 . 02 . Method of propagation of the variety *

vegetatively propagated

Please specify the method

seed propagated

04 . 03 . In the case of seed propagated varieties, method of production:

self-pollination

cross pollination

hybrid

other method

Please specify

04 . 04 . Pollenizer *

Good pollenizers are the following varieties *

05 . Characteristics of the variety to be indicated *

(the number in brackets refers to the corresponding characteristic in the CPVO Technical Protocol; please mark the state of expression which best corresponds)

05 . 01 . Fruit: size (20) *

1 - very small Müncheberger Frühernte

2 - very small to small

3 - small Annonay, Szomolyai fekete

4 - small to medium

5 - medium Early Rivers, Schmidt

6 - medium to large

7 - large Burlat, Rainier

8 - large to very large

very large Duroni 3, Sunburst

05 . 02 . Fruit: colour of skin (27) *

1 - yellow Bigarreau d'Or, Dönnissens Gelbe

2 - yellow with blush Napoléon, Vega

3 - orange red Tardif de Vignola

4 - light red Krupnoplodnaya

5 - red Alex, Sunburst

6 - brown red Burlat, Kordia, Lapins

7 - dark red Hedelfinger Riesenkirsche, Stella

8 - blackish Annabella, Knauffs Schwarze, Namosa

05 . 03 . Fruit: colour of flesh (31) *

1 - cream	Napoléon
2 - yellow	Dönnissens Gelbe
3 - pink	Reverchon, Sunburst
4 - medium red	Germersdorfi 45, Hedelfinger Riesenkirsche
5 - dark red	Rubin, Szomolyai fekete

05 . 04 . Fruit: firmness (33) *

1 - very soft	
2 - very soft to soft	
3 - soft	Early Rivers
4 - soft to medium	
5 - medium	Kordia, Sunburst
6 - medium to firm	
7 - firm	Reverchon, Van
8 - firm to very firm	
9 - very firm	Kavics, Sumtare

05 . 05 . Time of beginning of flowering (40) *

1 - very early	Müncheberger Frühernte
2 - very early to early	
3 - early	Lapins, Marmotte, Sumtare
4 - early to medium	
5 - medium	Merton Glory, Napoléon, Sumele
6 - medium to late	
7 - late	Germersdorfi 45, Reverchon
8 - late to very late	
9 - very late	Regina

05 . 06 . Time of beginning of fruit ripening (41) *

1 - very early	Cristobalina, Hâtive de Bâle, Müncheberger Frühernte
2 - very early to early	
3 - early	Burlat, Early Rivers, Valerij Chkalov
4 - early to medium	
5 - medium	Guillaume, Sunburst
6 - medium to late	
7 - late	Hedelfinger Riesenkirsche, Katalin
8 - late to very late	
9 - very late	Hudson, Regina, Vittoria

06 . Similar varieties and differences from these varieties

Please note that information on similar varieties may help to identify comparable varieties and can avoid an additional period of testing.

06 . 01 . Are there any similar varieties known? *

Yes

No

06 . 02 . Similar varieties and differences from these varieties: *

Denomination(s) of variety(ies) similar to your candidate variety	Characteristic(s) in which your candidate variety differs from the similar variety(ies)	Describe the expression of the characteristic(s) for the similar variety(ies)	Describe the expression of the characteristic(s) for your candidate variety

07 . Additional information which may help to distinguish the variety ***07 . 01 . Resistance to pests and diseases ***

Yes, specify

No

07 . 02 . In addition to the information provided in sections 05 and 06, are there any additional characteristics which may help to distinguish the variety? *

Yes, specify

No

07 . 03 . Are there any special conditions for growing the variety or conducting the examination? *

Yes, specify

No

07 . 04 . Other information *

Yes, specify

No

07 . 05 . Photo *

A representative colour photo of the variety must be **added** to the technical questionnaire.

08 . GMO-information *

08 . 01 . GMO-information required *

The variety represents a Genetically Modified Organism within the meaning of Article 2(2) of Council Directive EC/2001/18 of 12/03/2001.

Yes

If yes, please attach in point 08.02 a copy of the written attestation of the responsible authorities stating that a technical examination of the variety under Articles 55 and 56 of the Basic Regulation does not pose risks to the environment according to the norms of the above-mentioned Directive.

No

08 . 02 . In case of GMO, joint attestation of the responsible authorities stating that a technical examination of the variety under Articles 55 and 56 of the Basic Regulation does not pose risks to the environment according to the norms of the above-mentioned Directive.

09 . Information on plant material to be examined *

The expression of a characteristic or several characteristics of a variety may be affected by factors, such as pests and disease, chemical treatment (e.g. growth retardants or pesticides), effects of tissue culture, different rootstocks, scions taken from different growth phases of a tree, etc. Consequently the plant material to be examined should not have undergone any treatment which would affect the expression of the characteristics of the variety, unless the competent authorities allow or request such treatment. If the plant material has undergone such treatment, full details of the treatment must be given. In this respect, please indicate below, to the best of your knowledge, if the plant material to be examined has been subjected to:

09 . 01 . Micro-organisms (e.g. virus, bacteria, phytoplasma) *

Yes, specify

No

09 . 02 . Chemical treatment (e.g. growth retardant or pesticide) *

Yes, specify

No

09 . 03 . Tissue culture *

Yes, specify

No

09 . 04 . Other factors *

Yes, specify

No

10 . Possible place of the technical examination

In case the CPVO needs to arrange a technical examination for this candidate variety, there might be more than one examination office entrusted by the CPVO suitable to grow your variety. In this case, the Office will decide on the place of the technical examination but you might wish to express here a preference in respect of an examination office. The available entrusted examination offices for that species can be found in the S3 Gazette under:<http://cpvo.europa.eu/en/applications-and-examinations/technical-examinations/entrusted-examination-offices>

You will also find in the S2 Gazette further information about submission of plant material and deadlines for numerous major species:<http://cpvo.europa.eu/en/applications-and-examinations/technical-examinations/submission-of-plant-material-s2-publication>

10 . 01 . Country where the examination could take place

Country
