

Technical questionnaire

rape seed

CPVO/TQ-036/3

Mandatory fields or sections are marked with an asterisk ()*

01 . Botanical taxon: name of the genus, species or sub-species to which the variety belongs:

Brassica napus L. emend. Metzg.

Other species (please specify)

02 . Application code:

For office use only

03 . Breeder's reference:

Breeder's Ref.

04 . Information on the breeding scheme and propagation of the variety *

04 . 01 . Type of material *

04 . 01.01 . Line

(this question could be confidential)

male fertile line

Please specify the use "as component" or "as commercial variety"

male sterile line

04 . 01.02 . Hybrid

(this question could be confidential)

male sterile hybrid

male fertile hybrid

self incompatible hybrid

04 . 01.03 . Other type of material

(this question could be confidential)

Please specify

04 . 02 . Formula *

If applicable, for each component in separate sheets, the information according to the following chapter 5 to 7 to be added.

04 . 02.01 . Single hybrid

(this question could be confidential)

Denomination or breeder's reference of female parental line of single hybrid

Denomination or breeder's reference of male parental line of single hybrid

04 . 02.02 . Three-Way hybrid

(this question could be confidential)

Denomination or breeder's reference of single hybrid used

Denomination or breeder's reference of female parental line of single hybrid

Denomination or breeder's reference of male parental line of single hybrid

Denomination or breeder's reference of female parent of the three-way hybrid

Denomination or breeder's reference of male parental line of the three-way hybrid

04 . 02.03 . In case of use of the male sterility system, indicate the name of the maintainer line of the female parental line:

(this question could be confidential)

Maintainer line of the female parental line

04 . 02.04 . In case of use of self-incompatibility system, indicate if applicable the name of the self-incompatible lines

(this question could be confidential)

self-incompatible lines

04 . 03 . Other information on genetic origin and breeding method

(this question could be confidential)

Please specify

05 . Characteristics of the variety to be indicated *

(the number in brackets refers to the corresponding characteristic in the CPVO Technical Protocol; please mark the state of expression which best corresponds)

05 . 01 . Seed: erucic acid (1) (G) *

1 - absent	Jerome (S); King 10 (W)
9 - present	Erucola (S); Zeruca (W)

05 . 02 . Leaf: lobes (8) (G) *

1 - absent	Akela (W), Calida (W)
9 - present	King 10 (W), Dorothy (W)

05 . 03 . Time of flowering (11) (G) *

Quote mean date of flowering of variety as well as of two well-known comparable varieties *

05 . 04 . Production of pollen (16) (G) *

1 - absent	MSL523C (S); MSL007C (W)
9 - present	Jerome (S); King 10 (W)

05 . 05 . Plant: total length including side branches (17) (G) *

Quote length of variety as well as of two well-known comparable varieties *

06 . Similar varieties and differences from these varieties

Please note that information on similar varieties may help to identify comparable varieties and can avoid an additional period of testing.

06 . 01 . Are there any similar varieties known? *

Yes

No

06 . 02 . Similar varieties and differences from these varieties: *

Denomination of similar variety	Characteristic in which the similar variety is different	State of expression of similar variety	State of expression of candidate variety

07 . Additional information which may help to distinguish the variety ***07 . 01 . Resistance to pests and diseases ***

Yes, specify

No

07 . 02 . In addition to the information provided in sections 05 and 06, are there any additional characteristics which may help to distinguish the variety? *

Yes, specify

No

07 . 03 . Are there any special conditions for growing the variety or conducting the examination? *

07 . 03.01 . Group *

Spring oilseed rape

Winter oilseed rape

Spring forage rape

Winter forage rape

07 . 03.02 . Content *

Low glucosinolate content

High glucosinolate content

07 . 03.03 . Other conditions *

Yes, specify

No

07 . 04 . Other information *

Yes, specify

No

08 . GMO-information *

08 . 01 . GMO-information required *

The variety represents a Genetically Modified Organism within the meaning of Article 2(2) of Council Directive EC/2001/18 of 12/03/2001.

Yes

If yes, please attach in point 08.02 a copy of the written attestation of the responsible authorities stating that a technical examination of the variety under Articles 55 and 56 of the Basic Regulation does not pose risks to the environment according to the norms of the above-mentioned Directive.

No

08 . 02 . In case of GMO, joint attestation of the responsible authorities stating that a technical examination of the variety under Articles 55 and 56 of the Basic Regulation does not pose risks to the environment according to the norms of the above-mentioned Directive.

09 . Information on plant material to be examined

The expression of a characteristic or several characteristics of a variety may be affected by factors, such as pests and disease, chemical treatment (e.g. growth retardants or pesticides), effects of tissue culture, different rootstocks, scions taken from different growth phases of a tree, etc. Consequently the plant material to be examined should not have undergone any treatment which would affect the expression of the characteristics of the variety, unless the competent authorities allow or request such treatment. If the plant material has undergone such treatment, full details of the treatment must be given. In this respect, please indicate below, to the best of your knowledge, if the plant material to be examined has been subjected to:

09 . 01 . Micro-organisms (e.g. virus, bacteria, phytoplasma) *

Yes, specify

No

09 . 02 . Chemical treatment (e.g. growth retardant or pesticide) *

Yes, specify

No

09 . 03 . Tissue culture *

Yes, specify

No

09 . 04 . Other factors *

Yes, specify

No

10 . Possible place of the technical examination

In case the CPVO needs to arrange a technical examination for this candidate variety, there might be more than one examination office entrusted by the CPVO suitable to grow your variety. In this case, the Office will decide on the place of the technical examination but you might wish to express here a preference in respect of an examination office. The available entrusted examination offices for that species can be found in the S3 Gazette under:<http://cpvo.europa.eu/en/applications-and-examinations/technical-examinations/entrusted-examination-offices>

You will also find in the S2 Gazette further information about submission of plant material and deadlines for numerous major species:<http://cpvo.europa.eu/en/applications-and-examinations/technical-examinations/submission-of-plant-material-s2-publication>

10 . 01 . Country where the examination could take place

Country

DECLARATIONS *

I/we hereby declare that to the best of my/our knowledge the information given in this form is complete and correct.
